For business as well as personal use

GPS Tracking & Sat Nav Solutions

VEHICLE TRACKING

Professional Vehicle Tracking and Telematic reporting system from Snooper. Monitor any number of vehicles from one to an entire fleet with this highly flexible and comprehensive system.

Our GPS and GPRS technology allows you to track and monitor all your mobile assets - your fleet, your equipment and your workforce. GPS and GPRS technology uses satellites to accurately and efficiently locate and track your assets in real time.

OTHER SNOOPER PRODUCTS

Snooper Tracker has been designed to provide you with the exact position of just about anything you care to track. From vehicles to boats, your children and even your pets can all be effectively tracked.

SNOOPER SPT200
MULTI-PURPOSE TRACKING DEVICE

SNOOPER SPT220
PERSONAL TRACKER

VeriLocation

VeriLocation is an advanced web based fleet tracking system that allows you to take control of your vehicles. Monitor twenty four hours a day from any web browser in real time.

SAT NAV

smartnav

**The Smartnav Colour
Touchscreen has arrived!**

- With detailed street level mapping
- One button press connects you to one of Smartnavs PA's, available 24 hours a day
- Avoid traffic congestion, navigate your way around jams using re-routing option
- Reduce those speeding tickets with the Speed Camera Warning System
- Locate your nearest petrol station, restaurant, cash machine or hotel
- Stolen vehicle location, using the Global Positioning Satellite
- Fast becoming Number 1 satellite fitted systems.

SNOOPER

syriusSM S2000 PROLINE
TRUCKMATE
syriusSM PROLINE

SNOOPER SYRIUS PROLINE is the first portable sat nav system to include dedicated routing designed specifically for trucks and large vehicles - plus Snooper's multi award winning speed camera location technology.
